THEN VERSUS NOW
Blairmore, Alta., July 15, 1924.
Dear Editor:
Twenty-five years ago we remember: eggs were three dozen for 25c; butter 15c per pound; milk was 1c per quart; the butcher gave away liver and treated the kids to bologna. The hired girl received \$2.00 a week and did all the washin'; women did not paint or use powder, smoke, vote, play golf or poker, etc.
Men wore whiskers and long tailed coats, chewed tobacco, spit on the sidewalk and cussed. Beer was 5c a schooner and the lunch was free; laborers worked 10 hours a day and never went on strike. A kerosene hanging lamp and a stereoscope in the parlor were luxuries.
No man was ever operated on for appendicitis or got monkey glands; microbes were unheard of. Folks lived to a ripe old age and every year walked 5 or 10 miles to wish their friends a Merry Xmas.
Today, you know, everybody rides in automobiles or flies; plays golf, shoots craps, smokes pool, plays the piano with his feet, goes to the movies nightly, smokes cigarettes, drinks alcohol, listens in on the radio, and blames the H. C. of L. on his neighbors. Never goes to bed the same way he gets up and thinks he is having a roaring time.
The days of suffragettes, profiteering, excess taxes and bootlegging are passing. Don't weaken. It's a great life and if you think it is worth living, read the Ad of the F. M. Thompson Co. on the front page of The Blairmore Enterprise every week—then stick it up in a prominent place and please send us an order for Groceries, Dry Goods or Hardware.
Yours very truly,
F. M. THOMPSON CO.

COUNCIL CONSIDERS PURCHASE OF ELECTRIC FIRE SIREN
The regular meeting of the town council on Monday night was attended by Mayor McLeod, Councillors J. A. McDonald, J. E. Gilles, William Patterson, J. Montabetti, Evan Morgan and A. E. Ferguson, and Secretary Wright.
The minutes of previous regular and special meetings were approved as read and a large batch of accounts were passed for payment, subject to approval by the various committees. Chief among the accounts were those of the West Canadian Collieries, Ltd., for \$663.50, electric current supply for months of June and part of July, and E. J. Pozzi & Son for \$960.00, being amount of contract for retaining wall along the north side of Victoria Street, between Fourth and Fifth Avenues.
A communication from the West Canadian Collieries relative a nuisance ground site and proposition to lease a portion of land south of town for a period of ten years, was tabled. In the opinion of some of the councillors, the town should either purchase a site outright or lease for a much longer period of time than specified in the Company's proposition. The matter was laid over to be considered at next regular meeting.
The question of an electric fire siren came up for consideration and price lists were on hand describing and quoting on various types of siren. That most favored by the Council appeared to be a double-head equipment that could be imported from the States and set up at a total cost of from \$700 to \$800. This instrument could have connection with various points in town, including possibly the telephone office, and would have a sound range of upwards of a mile. The council decided to take no steps at present, but to give the matter consideration at the next regular meeting.
A quotation was received from a Calgary firm on hydrants. Some members of the council felt that before deciding to purchase new hydrants, a figure should be obtained from the Trusts & Guarantee Co. on second-hand hydrants, at present located around the old Frank townsite and which are not being used and may be purchased at a nominal figure.
Plans and specifications were submitted by Mr. Packer, who proposed to erect a house in the centre part of South Blairmore, "Permit to build would in due course be granted."
Council decided to offer inducement to ratepayers to pay taxes early, and a discount of 10 per cent. on taxes paid on or before August 16th, and 5 per cent. on taxes paid between August 16th and October 16th was granted.

L.O.O.F. HALL DEDICATED
In the presence of about two hundred members of the L.O.O.F. and other fraternal societies and friends, the beautiful and impressive service of dedication was performed in the Oddfellows' hall last night.
Grand Master McPherson, of Ryley, was present for the occasion and was assisted by a team from Blairmore Lodge.
A beautiful altar was erected and the edifice dedicated in regular form to the works of Oddfellowship.
Following the ceremony, an address befitting the occasion was given by the Grand Master and a programme of songs and speeches followed.
Quite a number were present from Hillcrest, Bellevue and Coleman.
Refreshments were served and the late hours were spent in dancing to music furnished by Royle's orchestra.

H. D. Gerry, auctioneer, of Cowley, was in town on Tuesday. Mr. Gerry conducted a successful auction sale at the Nasadyck ranch, north of Burnis, yesterday.

WILL OPERATE LARGE LIME KILNS
We understand that Messrs. Pozzi & Son have secured a lease of a tract of lime-rock properties in East Blairmore, upon which they will build and operate lime kilns to supply the district market.

Work of construction of kilns has already commenced. As the price of lime is very high at present, Messrs. Pozzi feel that they can well compete with other lime manufacturing concerns.

United States and the League of Nations

A proposal for a national referendum on the question of the United States entering the League of Nations has come from the platform committee of the Democratic National Convention, and should the Democrats carry the elections of members to the Senate and House of Representatives, the proposal for such a referendum will undoubtedly be vigorously urged.

The League of Nations is only four years old, but there is already included in its membership fifty-five nations representing more than three-quarters of the area and population of the world. Only eight countries are still outside the League, namely, the Dominican Republic, Ecuador, Afghanistan, Mexico, Russia, Turkey, Germany and the United States. With the signing of the Treaty of Lausanne, Turkey announced her intention of applying for membership, and Germany will not be admitted as soon as the present abnormal economic and political situation is settled. Russia is antagonistic and at present ineligible due to her peculiar political constitution.

Playing the game of party politics in the United States kept the President out of the League, notwithstanding the great part taken by the late ex-President Wilson and his colleagues in drafting the League Covenant. There has, however, always been a strong sentiment in the United States in support of the League of Nations and favorable to membership and active participation in its work by the United States. That sentiment has been kept alive and developed by the League of Nations Society in the United States, and by powerful public men, newspapers and organizations.

The large measure of success achieved by the League during the past four years has also had its effect in convincing thousands of people who, in the United States, as elsewhere, were somewhat skeptical that an international organization could be created, maintained and be made effective based on a mutual understanding of international co-operation and goodwill, and to achieve international peace and security. To many the idea seemed visionary, too Utopian, and altogether impracticable.

However, in a space of time actually shorter than the Great War, the League of Nations has been successful in settling three disputes which otherwise would almost certainly have resulted in wars; caused the cessation of hostilities between Poland and Lithuania; stopped a war actually in progress between Yugoslavia and Albania, and, through the instrumentality of the Permanent Court of International Justice established by the League, settled a serious dispute between Great Britain and France.

The League saved Austria from bankruptcy and has established that country firmly on the way to prosperity, thus preventing further trouble in Europe which inevitably would have followed the break-up of that country. It is now engaged in similar work for Hungary.

Through its International Labor Bureau, which consists of representatives of Governments, employers and employed, the League is improving industrial conditions by raising the standards of labor uniformly throughout the world, thus removing the old excuse that labor conditions cannot be improved in one country because of the lower standard prevailing in other countries in competition with it.

Action taken by the League stopped the extension and ravages of the plague of typhus which threatened to overrun all Europe. The League secured the liberation of half a million prisoners of war held in Russia long after hostilities had ceased. It is waging an organized world-wide campaign against the opium and drug traffic, as well as for the suppression of the traffic in women and children. It is engaged in scientific research and campaigns for the prevention of disease, and wherever a danger spot of plague arises there the League concentrates its good health forces.

The League of Nations is the greatest existing agency doing practical work for the reconstruction of the shattered nations of Europe, upon the rehabilitation of which depends the security and prosperity of the world. It is the one existing human agency carrying in itself the hope of all peoples for the maintenance of peace, and the ultimate disarmament of the nations. It is carrying on this work at a yearly cost not more than the upkeep of one first-class modern battleship.

The Great War cost Canada over one and one-quarter billions of dollars, not to mention the still more tragic loss in human life, in bodies crippled and shattered, in untold agonies of human suffering. The after-cost of the war to Canada this year will be \$56,729,400, or over one million dollars a week. On the other hand, Canada's contribution to the upkeep of the League of Nations, the only existing human agency capable of preventing war, will be only \$193,658, or less than four thousand dollars a week. That is our national insurance premium against war.

These things are having their effect on the people of the United States, and if the League issue could only be separated from party politics in our sister Republic, there is little doubt what the verdict of the people there would be. Hence the plan of a national referendum is to be welcomed. In the meantime, as the only North American member of the League, it is Canada's duty and privilege to interpret the League to our neighbors to the south, and in their intercourse with United States' citizens, whether personal or in their business relationships, Canadians should strive to promote sentiment favorable to the League of Nations, and show very clearly that they are looking forward hopefully to the day when the United States will occupy its rightful place in the brotherhood of nations, and in that long-dreamed-of Parliament of Man represented by the Council and Assembly of the League of Nations.

German-Turkish Air Mail

S. E. Zimmerman, veteran German aviator, who made a successful flight to Angora, Turkey, from Berlin, piloted the first German postal airplane to Angora by way of Budapest and Constantinople. His actual flying time of 27 hours set a new record.

Winston Churchill has occupied almost all of the higher offices in the British cabinet except the post of prime minister.

Clear Farms By Firing Forests

Natives of Central Africa in Kenya Colony clear farms by means of the hatchet and fire. This has destroyed much forest land as the farmer only uses his cleared patch twice before moving on to another forest. Forest officers are training the natives in the conservation of timber.

The doors of St. Peter's at Rome were closed by cypresses and have lasted 1,100 years.

Weekly Mail To Alaska

Railroad Makes This Possible For First Time Since 1898
Residents of the Yukon River are receiving a weekly mail service for the first time since 1898, owing to the great gold rush of the Yukon. The Alaska Railroad has made this possible.

A train leaves Seward, on the Gulf of Alaska of the Pacific Ocean, and winds its way to Nome, 400 miles north of the interior. At Nooka, the mail is transferred to government steamers which run on a weekly schedule down the Tanana River to Fort Gibbon on the Yukon River. From there the boats ply the Yukon to Holy Cross, 400 miles from the river's mouth.

From Holy Cross the Northern Commercial Company operates a fleet of launches to Nome and St. Michael, on the Bering Sea coast, and thence to the Inuk and Iditarod rivers in the interior.

WHEN YOUR THROAT IS SORE

It may be only a slight cold, but just a tickling in the throat. But little colds soon grow large and dangerous. Often they become chronic, develop catarrh, and end in consumption. Catarrh is the remedy. It draws inflammation and soreness out of the throat. Relieves the cough, and the phlegm, makes breathing easy, kills any germs lodged in the mucous lining of the throat or lungs.

By using CATARRHOZE INHALER now and again you keep the passages free from germs and thus prevent coughs and colds. Get the Dollar out! It lasts two months, small size 50c; sold by druggists. Refuse a substitute for Catarrhoze. By mail from The Catarrhoze Co., Montreal.

Heart Disease Not So Common As Is Thought

Main Cause Is Rheumatic Fever, Says Dr. Parkinson, Great London Authority

There is a world of good cheer and encouragement to those who imagine they have, or have been told they have, heart disease, in the emphatic declaration of Dr. John Parkinson, of London, England, in his address to the general gathering of the Canadian Medical Association in annual convention in Ottawa. Dr. Parkinson speaks with the authority of experience for he is physician in charge of the cardiographic department of the London hospital, physician to outpatients of the National Heart Hospital, and visiting cardiologist to the ministry of pensions.

Dr. Parkinson stated that a great range of troubles are placed under the heading of heart disease wrongly. There are many alleged causes of heart disease, such as nervous strain, and so on, which do not really cause permanent damage to the heart. "The athletic heart," like the strained heart, is a myth, and the tobacco smoker may go blazing ahead with the full knowledge that tobacco has nothing to do with heart disease.

Dr. Parkinson states emphatically that the evidence of tobacco causing permanent disease of the heart is very small indeed. It is easy to show that the early reported cases were due to something else. Smoking has a slight effect in increasing the heart rate and raising the blood pressure, but this occurs during actual smoking and for sometime afterwards. There is no good evidence that it causes permanent injury to the heart.

The main cause of heart disease, according to this eminent British authority, is rheumatic fever; and such complaints as palpitation, dizziness and fainting weakness need not necessarily give an impression that heart disease is present.

Drives Asthma Like Magic. The immediate help from Dr. D. K. Kelly's Asthma Remedy comes like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Something else to worry about: Does a horseradish belong to the animal or to the vegetable kingdom?

The cheapness of Mother Graves' Worm Expeller puts it within reach of all, and it can be got at any druggist's.

Judge (to Victim of hold-up): "While you were being relieved of your valuables did you call the police?" Victim: "Yes, m'lord, everything I could think of!"

A philosopher who is one who realizes that the people who have the things he wishes for are no longer than he.

Vancouver Wants Harding Memorial

Late President Won Hearts of People During His Visit

The decision of the Kiwanians to erect a memorial in Stanley Park to the late President Harding is one which the people of Vancouver will applaud heartily. President Harding was the only American chief executive to visit Canada during his term of office, and the spot where he delivered his message of friendship and goodwill to the Canadian people has, therefore, an historic interest which should be recognized. Quite apart from this, President Harding during his few hours in the city, won the hearts of Vancouver citizens as few have been able to win them, and raised enthusiasm to a pitch which will long be remembered. Warren G. Harding will not rank among the greatest of American presidents, but there was none whose humanity and love of his fellow men were greater, and it was these human qualities that appealed on that July day last year—Vancouver Province.

Discovers Pre-Historic Race

British Officer Finds Stone Age Tribe In Arabia

A stone age tribe has been discovered by a British officer in a mystery oasis in unknown Arabia. Captain R. E. Chesson, formerly private secretary to Sir Percy Cox in Baghdad, has just returned from an expedition into Arabia in the unexplored territories of the Sultan of Nejd.

He is the first European to have reached the oasis of Jabrin, the position of which has long been a matter of speculation to geographers.

The inhabitants of this region, with physical and linguistic peculiarities and virtually pagan, are possibly the survivors of the pre-Arab population. They are ill-provided with domestic utensils or clothing in advance of the stone age and are great thieves.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and with their destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily expelled without their usual refusal from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Seeing Through The Skin

French Scientist Claims That It Is Possible To See Through the Skin

The startling statement has been made by M. Jules Romain, a French scientist, that the blind might actually see—not with their eyes, but with the skin of the face, neck and chest. Apparently, according to M. Romain's theory, such a gift is common to all men in the average person the slightest power of the eyes overcomes the weaker sight of the other organs. If we all had this power developed, it is stated that it would be possible for us to see in a surrounding circle from various angles of the body through "mirrored eyes." The first essential for the man or woman who wishes to develop this gift is to bring about a complete concentration of all his attention. Considerable time must elapse before the result of this quiet concentration can become apparent. Sitings of about an hour's duration, if persisted in, should eventually enable the patient to perceive light, and then to visualize shapes and sizes of surrounding objects. After that swift progress is assured, and in time M. Romain claims that it is possible to read type almost as rapidly and accurately as one would with the eyes.

British Boys For Canada

Fifty boys sailed recently on the steamship Regina for Canada, where they will find positions on farms. The scheme forms part of the scheme to train 1,000 boys to settle farm colonies of the Salvation Army in London. The boys were urged by General Bramwell Booth to reproduce in the land of their adoption that was best in the thoughts and traditions of the motherland.

Simpler food and more raw fruit would be of immense benefit to the teeth, says an official of the British Dental Association.

The apex of fertility: Asking a woman "Why?"

For Sore Feet—Minard's Liniment

War Upon Cancer

Progress Is Made In Fighting This Dread Disease

Vice-Chancellor J. G. Armit, of Liverpool University, formerly of McGill University, Montreal, in a statement declared that research work at the university had reached the stage where it was possible to effect the disappearance of some, if not all, internal cancers.

The vice-chancellor also announced that research work in connection with foot and mouth disease had advanced to a point where it was possible to predict that a remedy for the disease would soon be found.

Murdered!

Put right out of business, a whole family not of good honest folks, but Corns—sore troublesome corns that sting and fester. Putnam's Corn Extractor is the only painless sure relief for corns, it never fails, 25c every where.

Enjoyed Visit To B.C.

Special Service Squadron Entertained 70,000 Visitors During Stay In Vancouver Harbor

The three cruisers of the special service squadron entertained 70,000 visitors during their stay in Vancouver harbor. On the last day, close to 3,500 children alone were taken over the ships. Vice-Admiral Sir Frederick Field said: "We have all immensely enjoyed our visit to British Columbia. Both officers and men have been absolutely overcome with the kindness and hospitality of the people, and have been tremendously impressed with the resources and prospects of the country." Two hundred of the visiting sailors were entertained July 5 in New Westminster and Cloverdale, the day's programme including the inspection of logging camps.

Hasty Marriages

Woman More Responsible For Divorce In Germany Than Man

The female sex is more often responsible for divorce in Germany than man, according to a report issued by the statistical department of the German Government.

The report declares the first five years of married life are the happiest and after that those who survive the ninth year seldom are divorced.

War marriages have proved a big failure. The last year in which most of these were contracted has caused equal haste in getting them undone. There were 35,000 divorces in 1921 and 36,000 in 1922. Statistics show that Germany is continuing to average more than double the number of divorces granted before the war.

After a desperate struggle a sea monster, 17 feet long, 12 feet in girth, weighing something like two tons, was captured at Simonstown, South Africa.

Industrial Disputes Act

Claim Made That Senate Amendment Only Complicates Matters

Hon. James Murdock, minister of labor, moved in the house that an amendment to the Industrial Disputes Act, passed by the senate putting the appointment of a chairman of the board of arbitration in the hands of the chief justice, be not concurred in that the bill be referred back to the senate.

The objection of the minister was that the amendment introduced in the senate only complicated the operation of the Industrial Disputes Act. The motion was carried on division.

A Severe Attack Of Heart Trouble Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but I only seemed to be getting worse. I finally went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again."

Milburn's Heart and Nerve Pills are sold at all dealers, or mailed direct on receipt of price by T. Milburn Co., Limited, Toronto, Ont.

Stamps For a House

In a shop window not a hundred miles from Regent Street is the following advertisement: "A Riverside residence with lovely grounds, only 45 minutes by train from London. Will take, in exchange, a valuable collection of postage stamps."

REFERENCE TO RECIPROCITY IS MADE IN HOUSE

Ottawa.—There was a brief reference to reciprocity with the United States in the House of Commons, when on a vote of \$20,000 for expenses in connection with the negotiation of treaties, Sir Henry Drayton, former finance minister, expressed the view that such a vote was hardly necessary, adding that a trip to Washington would not cost very much.

Hon. J. A. Robb, acting minister of finance, replied that a trip to Washington might not cost very much, but that it would be well worth while if it resulted in an arrangement.

"Reciprocity" queried R. A. Hoey (Conservative, Springfield).

"An arrangement," continued Mr. Robb, "which would enable our cattle and other farm products to circulate more freely on the markets."

E. J. Garland (Progressive, West River) asked whether Mr. Robb was expecting any expenditure under this head during the coming year.

"I say frankly," was the minister's reply, "that we are looking forward with much interest to the results of the elections in the United States this fall."

"Reciprocity?" Mr. Garland questioned again.

"I did not say that," answered Mr. Robb.

"Why not say it," returned Mr. Garland, "if that is what my honorable friend has in mind?"

Must Make Their Own Way

Emigration From Britain Has Served Useful Purpose Says Dunning
London.—Honorable Charles Dunning, Premier of Saskatchewan, visited the scene of his boyhood, and was given a cordial welcome by the Mayor of Leicester, who also held a reception in his honor. Mr. Dunning is a native of Croft, near Leicester, and worked in Leicester as a boy before going to Canada.

Replying to speeches of welcome, Premier Dunning spoke of the pioneers in the Canadian western provinces and also referred to immigration into that country. There was no room, he said, for immigrants to pick their jobs. He understood there had been respectable allusions to the emigration of the young manhood from Britain, but England should not forget that emigration from Britain had built up a most useful league of nations under the British flag. At present the continent of Europe was clamoring at the gates of Canada, asking only to be let in, but the attitude, he was sorry to say, of many colonies was that England was "what will the Government do for us if we go?"

Arranging Greeting For British Aviator

MacLaren Expected in Edmonton About First of August
Edmonton.—Stuart MacLaren, the British around-the-world aviator, will bring his machine down in Wabunan Lake in two or three weeks' time. News of this effect has been received by the Government. Flying officers handling the big surveys plans now operating out of Morleyville. Pilot Carter and Canonman Walker will be at Wabunan to meet the British aviator and who will be met by the Mayor of Edmonton. It is quite possible that the local machine will soar above and take a photograph of the flying boat. Mayor Blatchford is arranging to have a civic party at Wabunan to greet the tourists and extend good wishes.

Britain Is Pleased

Nomination of Davis At Democratic Convention Is Received With Satisfaction

London.—The nomination of John W. Davis for President of the United States by the Democratic National Convention at New York is commended on, with great satisfaction here, largely due to his popularity when he served his country as ambassador to Britain. At times he was credited with having shown "sympathy and friendliness for this country, and he made many personal friends." The Daily Telegraph recalls appreciatively the speech of the Prince of Wales at the farewell dinner to Mr. Davis, in which the Prince said: "He has been more than an ambassador—he has been a true friend."

After New Immigrants

Quebec.—The bringing of immigrants to Canada, particularly Danes and Norwegians, is one of the main objects of the trip to Europe of President E. W. Beatty, of the Canadian Pacific Railway, who sailed on the steamship Mountbatten, he stated.

W. N. O. 1933

Government System of Bank Inspection In Canada

Ottawa.—A bill to provide a system of government inspection of Canadian banks passed committee stage in the House of Commons and merely awaits final reading in the House before going to the Senate for approval. The measure comes as a result of the failure of the Home Bank and subsequent investigations of the Canadian banking system by a Parliamentary committee, during which expert evidence from the United States was called. Under the bill, an inspector-general of banks will be appointed, the inspector reporting to the minister of finance.

Referred To Supreme Court

Doubt Has Arisen In Reference To Eight-Hour Day Legislation

Ottawa.—Reference of the eight-hour day convention to the Supreme Court of Canada for opinion on jurisdiction will be recommended to the House of Commons by the committee on industrial and internal relations. The convention was adopted at the Washington conference of the International Labor Organization of the League of Nations.

Canada was a party to the convention, but doubt has arisen whether the implementing of the legislation comes under federal or provincial jurisdiction. It is this doubt which, if the committee's recommendation is adopted, will be referred to the Supreme Court for opinion.

An amendment to a report originally presented, recommending that the government should bring down legislation to provide for the eight-hour day on all government contracts entered into in future, was also adopted.

Voluntary Salary Cut Would Be Temporary

Offer of C. N. Officials Would Apply Only During Curtailment Period

Montreal.—If the board of management of the Canadian National Railway accepts the offer of the officers of the railway to have their salaries reduced one day's pay a month during the period of curtailed receipts, it is pointed out that President Sir Henry Thornton will contribute more than \$1,600 in a year from his \$50,000 salary.

If accepted, it is thought here that the officers' voluntary cut would last only as long as the reduction in hours for the men in the shops of the system continued. The reduction would apply, if accepted, to every officer above the rank of chief clerk.

Increase Compensation For Registered Letters

Amount of \$100 May Be Paid For Loss

Ottawa.—The bill to amend the Post Office Act, increasing the compensation that may be paid for loss on registered letters, was given a third reading in the House of Commons. Under the present law the limit of compensation is \$25 for registered articles, but insurance may be obtained up to \$100. Hon. Charles Stewart, acting minister of commerce, stated that the rates for registration for increased values under consideration were 20 cents for \$50; 20 cents for \$75; and 40 cents for \$100.

Not Building Storage In B.C.
Regina, Sask.—J. A. Gregory, president of the Saskatchewan Co-operative Creamery, upon returning to this city, denied a report which stated that his organization intended constructing a huge cold storage plant at Vancouver for the storage of Saskatchewan butter. He stated that he found prospects of a good market for Saskatchewan butter in B.C. and also in the Orient.

U.S. Physicians Indicted

San Francisco, Cal.—Nineteen physicians were under indictment here in connection with alleged activities of a nation-wide "diplomacy" which were preferred by the California state board of medical examiners and the indictment subsequently voided.

Wheat Heading Out

Brandon, Wis.—Wheat has already headed out on two farms in the Kenawy district. This wheat was seeded about the first week in May, and is the first to be reported in head. These fields look good, and are a fine stand when the late season is considered.

Not Invited To Polo Matches

London.—The secretary to the Prince of Wales denied that the Prince had received or accepted an invitation to attend the polo matches between the United States and Great Britain in the United States next September.

Governor-General Will Make Tour Of West

Baron and Lady Byng to Spend Some Time in British Columbia

Ottawa.—Governor-General Byng, accompanied by Lady Byng, will leave the capital over the Canadian Pacific Railway, on Sunday, July 20, on his trip to Western Canada, most of which will be spent in British Columbia, according to the itinerary announced here.

Arriving at Winnipeg at 6:15 p.m. July 22, he will leave the next morning, stopping a few hours at Regina and Calgary, and arriving at Vancouver at 3 p.m. July 26. The next day will be spent at Victoria, and on July 28, he is scheduled to leave for Port Arthur, at 10 p.m., arriving there the next morning.

Summerville, Kelowna, Okanagan Landing, Grand Forks, Trail, Rossland, Nelson, Balfour, Kootenay, Fernie, Crow's Nest, Blaine, Frank, Lake Windermere, Arrow Head, Nakusp, Revelstoke, Vernon and Salmon Arm will be visited before His Excellency returns to Ottawa on train No. 2, C.P.R., leaving Steamtown at 10:15 a.m. August 13, to meet the officers of the British special service naval squadron. His Excellency, in the meantime, will pay a visit to Jasper Park. The Governor-General leaves Ottawa again on August 24, and will return Lady Byng at Night by train.

They will then visit Northern Ontario points together, returning to Ottawa, September 6.

KNOTTY POINTS TO BE SETTLED AT CONFERENCE

Paris.—The aims and objects of the inter-allied conference and the views of France and Great Britain as to how the controversial points at issue may be settled are set forth in a text which Premier MacDonald and M. Herriot agreed should be submitted for the British text, which caused a storm of protests in opposition circles in France.

The new text sets for a series of provisions:

1.—Both countries confirm their acceptance of the Dawes report.
2.—They agree that the arrangements to be made under the Dawes plan must not infringe upon the authority of the Reparation Commission.
3.—In case the Reparation Commission declares Germany in voluntary default in the execution of the Dawes plan the interested governments undertake to confer immediately as to the measures for putting into effect the plan, coming within the scope of the plan have come to an agreement previously for their protection and for the protection of the subscribers to the loan to Germany.

4.—The plan whereby the economic and financial unity of Germany shall be re-established when the Reparation Commission shall have reported the Dawes plan in effect, will be drawn up by the inter-allied conference.

5.—Common accord of the governments shall not modify the expert plan in case experience proves that measures are necessary.

6.—The allies shall set up an organization to study and report on the utilization of payments made by Germany toward reparation.

The text points out that while the Reparation Commission cannot be disposed of its prerogative to decide when Germany is in default, guarantees must be provided for the subscribers to the German loan of \$800,000,000 marks.

Chicago Motorists Warned

Chicago.—Chief Morgan Collins' drive to make the streets safe for pedestrians showed surprising results in one day. Not one serious accident was reported at nightfall. More than forty arrests were made during the day and Collins said the police were making a noticeable stride in the speed of cars. Nearly 500 persons have been killed in street accidents this year, an average of two a day.

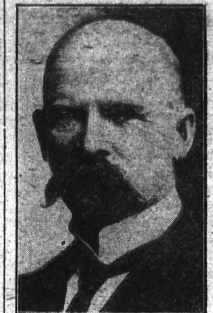

Mountaineer Reported Safe

Edmonton, Alta.—Dr. A. Worthington, Philadelphia, a well-known mountaineer, who left Jasper with his Swiss guide, Conrad Kain, and who was later reported to have been the victim of an accident or loss, is now safe, and members of the local Alpine Club who went in search of him have returned to Jasper, according to word received here.

Prince Sails On August 25

Southampton, England.—It is announced that the Prince of Wales will sail for Canada with four or five friends on August 25, and will return to England about the beginning of October. No elaborate arrangements are being made for the trip, and the Prince, at his own request, will travel as an ordinary first-class passenger.

Prominent Official Passes

DR. FRED TORRANCE
former veterinary director-general of Canada, who died suddenly in Guelph while sitting at the wheel of his automobile.

Thanks Canada For Reception

Admiral Field Expresses Appreciation Of Welcome At Vancouver
Vancouver.—Lieut. Governor W. C. Nichol, who has acted throughout the reception to the British special services of the Dominion Government, and, on its behalf, extended the formal welcome to Vice-Admiral Sir Frederick Field, received from the admiral just before the latter's leaving for San Francisco, an expression of appreciation.

"Before leaving British Columbia," writes Sir Frederick, "I wish, on behalf of the flag officers and ships' company of the special service squadron, to thank you and, through you, the people of British Columbia for the warm-hearted welcome and generous hospitality extended to us throughout our most delightful visits to Victoria, Esquimalt and Vancouver."

Similar expression has also been given by Rear-Admiral Sir Hubert Brand, in command of the light cruiser squadron, which remained at Esquimalt through the whole period of the fleet's visit.

Lloyd George Heard From

Former Premier of Great Britain Now Striving Political Waters

London.—Is Lloyd George about to start out in a fresh breeze to stir political waters of the British Empire?

Of late the former premier has frequently been likened to the proverbial slip without a sail. Has he discovered, and bent on a main sail and headed into political winds from which England is never free?

These are questions asked following the dinner when Lord Beaverbrook entertained the visiting Canadian press representatives, and at which Lloyd George was the piece de resistance among the orators.

Lloyd George was hailed by the host of the evening as the "greatest Empire builder of our time." It is considered significant that the Daily Express, which is a Beaverbrook publication, today gives the Lloyd George speech verbatim, despite the many generalities of the address and the limited space in the paper.

Grain Loading Record Is Made At Montreal

Steamer Takes 274,590 Bushels In Six and a Quarter Hours

Montreal.—Beating all previous records for rapid loading of grain in the port of Montreal and creating what is believed to be a world's record, the British steamer Immerton, 3,241 tons, took on board 274,590 bushels of Canadian wheat in six and a quarter hours in the harbor commissioner's elevator. The new conveyor section, "The pre-war record was made in August, 1922, when the British steamer Clearpool took on board 240,000 bushels of wheat in 9 1/4 hours.

Danes and Norwegians For Canada

Quebec.—The bringing of immigrants to Canada, particularly Danes and Norwegians, is one of the main objects of the trip to Europe of President E. W. Beatty, of the Canadian Pacific Railway, who has sailed the steamship Mountbatten. The Danes and Norwegians he described as "our people workers" who would be great assets to Canada.

Stampede At Calgary

Calgary.—All attendance records for any exhibition or stampede ever held in Calgary were shattered in one day, when 40,000 persons passed through the turnstiles into the fair grounds to witness Calgary's monster 1924 stampede and exhibition. The greatest and most successful in every way that was ever held.

Expresses Confidence In Executive Of Farmers' Union

Regina, Sask.—L. C. Brouillette, secretary of the wheat pool organization and vice-president of the Farmers' Union, expressed his entire confidence in the executive of the union and his approval of what had been done by that body. At the same time he voiced regret over the original statement given out by W. M. Thrasher, in which the latter branded the confidential circular soliciting support of Farmer-Union delegates to the pool as an over-reaching of authority on the part of the secretary. As to the movement to gain control of the Saskatchewan Co-operative Elevator Company, Mr. Brouillette remained non-committal.

Replies To Charges Against Pension Board

Secretary Denies Veterans' Charge Of Not Receiving Square Deal

Ottawa.—J. A. Paton, secretary of the board of pension commissioners, replied to charges of incompetence made against the board of veterans' organizations, before the House of Commons committee on soldiers' pensions. Answering the charge that the veterans were not receiving a square deal, Mr. Paton said that thousands of men had been receiving pensions for years without complaint of dissatisfaction. The board had awarded increases in pensions wherever possible, according to the statutes as amended in 1923.

The committee then proceeded in camera to discuss the action of L. W. Humphrey, Progressive, West Kootenay, to remove from office the members of the board of pensions commissioners.

Praises Canadian Display

Outstanding Exhibit At Wembley Says

Edmonton.—Hon. Geo. Hoadley, minister of agriculture, who has returned home after visiting the British Empire Exhibition at Wembley as the official representative of the province. Mr. Hoadley, in an enthusiastic regard to the fair, declared it to be the best he had ever visited. Canada's exhibit, he said, was easily the most outstanding exhibit there.

NO LEGISLATION THIS YEAR ON RURAL CREDITS

Ottawa.—Another fruitless attempt to obtain legislation this year with regard to rural credits was made G. G. Coote, Progressive member for Macleod, before the House Banking and Commerce Committee, when he moved that legislation on the subject should be brought down this session. In view of previous action taken, when the committee decided to report to the House for legislation next session, Chairman Vien asked if Mr. Coote would drop his motion.

"No," replied Mr. Coote. "You can easily kill but I will not drop it. The people are tired of investigation and want action."

The chairman said Dr. H. M. Tory, president of Alberta University, who investigated rural credits for the government, had reported that a further inquiry was necessary.

Hon. H. H. Stevens, Conservative, Vancouver Centre, who supported the proposal for emergency action this year, held that before adopting Mr. Coote's present motion it would be necessary to rescind the action taken previously.

Mr. Coote's motion was defeated only four voted for it.

Mr. Coote later moved to limit the issue of provincial bank notes to the issue of the unimpaired, paid-up capital instead of 100 per cent. as at present. He stated frankly that he proposed that as a step toward substituting government notes for bank notes. After a brief discussion Mr. Coote withdrew this motion and discussion shifted to a second proposal by the same member that the control of bank notes issue should be transferred to the finance department from the Canadian Bankers' Association. This was voted down, 29 to 10.

Vancouver Police Raid Clubs

Vancouver.—Nine men were arrested and alleged liquor valued at approximately \$500 was seized, when the liquor act enforcement squadron of the city police staged a series of raids on returned soldiers' and other club organizations in the city.

Distribute Canteen Fund

Ottawa.—Distribution of the canteen fund of the Canadian Expeditionary Force will be provided for in government legislation to be brought down this session.

WILL MAKE NO MILITARY PACT WITH FRANCE

London.—Premier Ramsay MacDonald, in a statement in the House of Commons, explained his recent visit to Paris and discussion with M. Herriot, the French Premier, on the restoration of the League of Nations. He stated that Mr. MacDonald has gone a long way to ally French resentments and susceptibilities, even to the extent of temporarily giving up some of his own positions in an endeavor to help the House of Commons ward off an initial attack by the Polignac bloc in the French Senate.

It has been agreed by the British ministers and Liberal leaders to await the outcome of the debate in the French Senate before debating the subject in the British Parliament.

In the memorandum accompanying the original British invitation to Italy, Belgium and Japan to attend an inter-allied conference, the British Government proposed that in the event of a German default, the matter might be referred to the League of Nations or the Hague arbitration tribunal, thus lifting it out of the hands of the Reparation Commission. It was this proposal that caused so much resentment in France and gave M. Polignac a weapon with which to attack Premier Herriot.

The British Prime Minister's statement shows that the idea of reference to the League or the Hague has been dropped, and that in its stead, the endeavor was being made to secure American help for such arbitration duties.

Two other important points came up in Premier MacDonald's statement. He stated that the British Government declined to associate the question of inter-allied debts with the expert's report, and would equally refuse to agree to any military pact with France.

Will Not Remove Bodies Of Soldiers

All Canadian Dead Will Sleep Where They Fell

Ottawa.—The question of removal of Canada of the bodies of soldiers buried in the war zone was brought up in the House of Commons by John Evans, Progressive, Saskatoon. The case of a particular parent who had been refused the right to bring his son's body from Passchendaele to Saskatchewan was cited. Could not the Government ask the Imperial Government to authorize the trans-shipment of this body?

Hon. E. M. MacDonald, Minister of Defence, said that he appreciated the feeling of bereaved parents. What he ever might seem the humane thing to do in isolated cases, the minister thought the rule made by the previous Government, that Canadians should sleep their last sleep on the soil they fought for, was the right one.

Democratic Nominee

John W. Davis, of West Virginia, Is New York's Democratic National

Selected.—The Democratic national convention brought its tempestuous session to a close by placing before the country a ticket headed by John W. Davis, of West Virginia, with Governor Charles W. Bryan, of Nebraska, in second place.

The nomination of the Nebraska, who is a brother of William Jennings Bryan, took only one ballot. The word, that the leaders wanted his nomination was passed quickly about the convention hall and the result was long in doubt.

John W. Davis, of West Virginia, nominated for the Presidency by the Democratic national convention in the breaking up of its historic deadlock, assumed the active leadership of the party.

Small Sum For Peace

Ottawa.—The House of Commons for peace and twelve million dollars for war," remarked Miss Agnes MacPhail (Independent Progressive, East Grey) when an item of the smaller amount for the inter-Parliamentary Union for Peace was passed by the House of Commons. Although it was small, Miss MacPhail said it was welcome.

Japanese Immigration

Ottawa.—From April 1, 1915, to May 31, 1924, a total of 2,080 Japanese women entered Canada as settlers. During the same period 439 male Japanese laborers and 1,345 male Japanese, other than laborers, were admitted.

Death Of Canadian Poet

Toronto.—A literary career of great promise was ended in the death in a Toronto hospital, following a long illness, of Miss Laura E. McNally, a poet and writer. Her writings had attracted much attention.

THE EXTREME IN VANDALISM

A few weeks ago, mile signs were
erected by the Board of Trade for fif-
teen miles west of Blaimore, and in
less than a week afterwards several
of such signs were battered and broken
or torn away, all within five miles
of the town of Coleman.

While the Board have suspicion as
to the guilty party, they are offering
a reward for information that will
lead to the arrest and punishment of
the vandal.

WHAT THE EDITOR GETS

Flowery and long is the wedding
notice which this editor printeth.
The minister getteth ten bones. The
groom standeth the editor off for a
twelve-month subscription. All flesh
is grass and in time the wife is gath-
ered into a she. The minister getteth
his bit. The editor printeth a death
notice, two columns of obituary, a
subit of poetry, and a card of thanks.
And he forgetteth to read proof on
the head and the thing cometh out
"Gone to Her Last Roasting Place."
And all that are akin to the deceased
jumpeth on the editor with exceeding
great vigor. And they pulch out
their aids and cancelleth their sub-
scriptions and they swing the ham-
mer unto the third and fourth gen-
eration.—Arkansas Exchange.

REBEKAH LODGE

INSTALL OFFICERS

The officers of Crowview Rebekah
Lodge, No. 66, I.O.O.F., were instal-
led on Thursday evening last by Dis-
trict Deputy President Sister C. A.
Fraser, assisted by a number of Past
Grands. Following are the officers
as installed:

J.P.G.—Mrs. M. Joyce.
N.G.—Mrs. T. S. Dawson.
V.G.—Mrs. J. Davis.
Treas.—Mrs. J. R. Warner.
R.S.—Miss W. Christophers.
F.S.—Mrs. F. Wheatley.
O.G.—Mrs. W. O. Evans.
I.G.—Mrs. H. C. James.
R.S.N.G.—Mrs. S. McKay.
L.S.N.G.—Mrs. J. B. Harmer.
R.S.V.G.—Miss E. Kidd.
L.S.V.G.—Miss L. Evans.
Warden.—Mrs. S. Simister.
Conductor.—Mrs. G. Evans.
Organist.—Miss W. Dicken.

During a lightning storm on Mon-
day evening, several trees on the
summit of Goat Mountain were set
ablaze and the fire lasted till well
into the night.

Mrs. Callan and two sons, after
spending a week or two with friends
here, left for Nelson on Sunday morn-
ing to spend a few days before set-
tling down in Cranbrook.

A man named Albert Cradfield,
aged 32, and a lad named Eric Har-
greaves, 15, were killed by lightning
near Innisfail last week.

During the past eight or ten days
there has been a continuous rush of
tourists, motoring east and west,
through the Crows' Nest Pass. At
any time during the day they are seen
passing and most of them stop for a
while in Blaimore.

Five persons were drowned through
the upsetting of a sailing boat near
Victoria on Saturday last, and two
members of the crew of the freighter
"Morning Star" were lost when the
ship was threatened with destruction
in a whirlpool in Active Pass.

HILLCREST HAPPENINGS

Born to Mr. and Mrs. Angus Kraw-
chuck, on the 14th instant, a son.

A. N. Warringer and family left by
motor on Saturday on a vacation trip
as far as Vancouver.

Mrs. S. Richards and family re-
turned on Saturday afternoon, after
spending a month's holidays motoring
at coast points.

Mr. and Mrs. John Mackie and Rob-
ert Smith have returned from a
month's vacation spent at Spokane,
Seattle and other coast points. The
trip was made by motor.

Ed. Royle and family, accompanied
by Mr. Bartlett and Mr. Johnson, of
Blaimore; also S. Knapman and fam-
ily, of Blaimore, motored to Water-
ton Lakes on Sunday and had a most
pleasant time. On these trips Bart-
lett is bartender and Johnson the
cook. Camping spots may be marked
with chicken skeletons.

COWLEY HAPPENINGS

Miss Hudson, of Calgary, is guest
at the Easterbrook ranch.

Miss Rita Contes, of Calgary, is
paying a visit to her parents.

Mr. George H. Eaton, of Maycroft,
was a visitor to town on Tuesday.

Miss Phyllis Karn, of Calgary, was
a visitor to town the early part of
the week.

Roy Easterbrook and family, of
Youngstown, are visiting his mother
here at the ranch.

Mrs. Archie Swart and children left
on the Tuesday mid-day train for a
visit in Lethbridge.

Miss Gladys Baines left on Tuesday
for Calgary, where she will be em-
ployed in the Union Bank superin-
tendent's office.

H. D. McMillan, when driving his
car up the grade into Lundbreck Fri-
day night, was struck by a heavy car
going west at high speed, at a point
on the turn just over the railway
track. His bumper was broken in two
and the front of the frame bent. The
other car suffered a broken axle
and other injuries. No one was hurt.

OPEN SAFETY PIN

IN CHILD'S STOMACH

JAMAICA, I. I., July 12.—Eight-
months-old Grace Lokaw, who swal-
lowed an open safety pin on July 6,
with no ill-effects, was examined
again today and it was found that the
pin had not been moved from where
it became wedged in the child's stom-
ach by a diet of mashed potatoes, or-
dered by physicians last week. The
physicians prescribed that diet, hop-
ing it would force the pin from its
dangerous position. The only effect
to the potatoes was to add several
pounds to the baby's weight. Doctors
said the child would probably grow
up without having her health endan-
gered by the open pin.

POLICE MUST LEARN

HOW TO RUN

Los Angeles, June 25.—The police
here are being put through a course
in physical culture by Capt. Walter
Yant, former physical director of the
91st division at Camp Lewis.

Explaining the need for the course,
Captain Yant said: "Very few police-
men can run three blocks or even two.
Few can go up or down a rope. Hav-
ing big muscles and being able to lift
heavy weights are not physical fit-
ness. Some officers don't know how
to stand. Many don't know how to
breathe."

An exchange gives a recipe on
"how to get rid of ants." Many a
man would rather know how to get
rid of his mother-in-law.

An American tourist approached a
local Scotchman the other day and
remarked: "Travelled three thousand
miles without a blowout." The Scotch-
man, thinking a golden opportunity
for a "blow out" had arrived, exclaim-
ed: "Let's have one tonight."

The town of Coleman has decided
to install concrete sidewalks along
Main Street and tenders for the work
are being invited.

The kitchen of the tourist camp has
been doubled in size and quite a num-
ber of other improvements have been
effected during the past few weeks.

Remember the grand ball to be
given by the ladies of Burnis at the
big Burnis University tomorrow
night. Dancing will commence at 8
o'clock. Music by the state orchestra.

Upwards of 167,000 persons attend-
ed the Calgary Stampede, which
closed on Saturday last. The 1924
Stampede was adjudged the greatest
and best ever.

A car containing four passengers
rolled off the road west of Crows'
Nest station one night last week. The
car turned over about ten times with
its occupants till it reached the rail-
way track. No damage was done to
the railway.

Mr. and Mrs. Bugby have returned
from an extensive motor trip, cover-
ing about two months, in which they
cruised over the Banff-Windermere
trail, down to the Pacific coast and
back through the States as far as
Chicago and back.

ADDITIONAL LOCALS

The church union bill has passed the senate.

The lighter a man's head is the higher he is able to carry it. We are awfully light-headed!

It may be just a coincidence, but it seems strange that primary teachers make the best wives.

An eighteen-month construction programme at the Trail Smelter is being put into force by the Consolidated Mining & Smelting Company.

J. A. McDonald and family, of the Empire Hotel, Coleman, are enjoying a few weeks motoring and camping along the Banff-Windermere trail.

The North Judson, Indiana, News, says: "The local Oddfellows are selling lots in their cemetery for \$10.00 each." This is an attractive bargain.

Mr. and Mrs. H. Meade, of the Bellevue Bakery, left on Sunday last by motor for Denver, Colorado, where they will visit at Mrs. Meade's home. They will be away about three weeks.

Mr. Oliver, of the Toronto Conservatory of Music, examined the pupils of Miss Brown at her studio on Tuesday. The marks will be published later.

A debutante is a young lady who sleeps all morning, drinks tea all afternoon, and "walks backwards" all evening to the tune they call the fox trot.

Town lots are nowadays very much in demand and it looks as if Coleman's building fever has spread to Blairmore. Some fine cottages are at present in course of construction and many parties are planning building.

Mrs. Callan has purchased the Villa Lodge, a ten-roomed cottage at Cranbrook, and intends catering to tourist trade. The lodge is desirably located and beautifully designed and furnished.

Messrs. Max Stigler, George Bouthillier, Sam Simister and Harry Benson are fishing on the South Fork. They took along several horse teams and dog teams, as well as block and tackle, with which to land the big uns.

We join in sympathy with Mr. and Mrs. Andrew Bower in the loss of their little four-year-old son, following an attack of appendicitis. Mr. Bower and family are residing in the Waterson Park, east of Waterton Lakes.

So far every tourist who has enjoyed a few hours or days in the Blairmore campsite is loudly voicing appreciation of ours as the best campsite they have run across. In fact one party last week stated that they found it hard to tear away from such beautiful scenery and desirable camping grounds.

A Scotchman, returning from America, took a barometer back with him, and explained to his mother that by it they could tell whether the weather was going to be wet or fine. "Aye," said she, "it's a fine thing, but you ken ye've been wasting your money. What do you think Providence gave your father the rheumatism for?"

The bobbed hair girl—apart all we have said or can say against her—is here to stay. Four of her sat in Link's barber shop the other day, four more at Upham's and three to six at the Alberta, and the barber shops are getting their share of her. We'll just have to accept her—along with other evils, such as protection, church union, prohibition and the auto—and try and forget how much better she looked before she shed her tresses.

An exchange remarks: "In this province we pay for the fun of operating an automobile from eleven to forty dollars a year, or probably for six months. In the State of California, where the roads are as level as the floor and one may drive a car every day or month in the year, the license fee for operating any make of machine is three dollars for twelve months and like fees are charged in other states."

ADDITIONAL LOCALS

Miss Maggie Kemp has returned from her annual vacation.

Miss Whyte, B.A., of Oxbow, Saskatchewan, has been engaged as vice-principal of the Coleman school.

The opening of the Edmonton Exhibition and Stampede on Tuesday was somewhat marred by a rainstorm.

The war on pests instituted by the provincial government hasn't yet caused some of the Blairmore pests to move.

Major McLaren, British aviator flying around the world, is believed to be being many hours overdue between Tokyo and Faramashir Island.

Sixty tourist parties camped on the Blairmore Campsite on Tuesday night and the average for the past two weeks has been in the neighborhood of twenty-five per night.

Archie McLeod, senior; Archie McLeod, junior; Stephen Piccarilli, Miss A. Marquis and quite a number of other local folk took in the Calgary Stampede last week.

Mr. and Mrs. W. W. Scott and family left on Sunday morning by motor for Edmonton. Mr. Scott, before his return, will visit his brother, Mr. A. C. Scott, at Rosebud Creek, Alta.

It is said that about three vacancies on the Blairmore teaching staff will require to be filled by September 1st, and already about one hundred applications are in the hands of the Secretary.

Miss H. M. Brown has left for the coast on her holidays. During the summer she will study under Prof. Umberto Martucci, of New York. She will return to continue her classes on September 24th.

Printers' errors are not very frequent these days, but we noticed one bloomer the other day which read like this: "The Reverend Mr. Peabody conducted the service. The gentleman in charge of things was notorious as a long-winded artist."

A number of local cricket enthusiasts journeyed to Fincher Creek yesterday afternoon, where a game was played. We understand that a return game will be played in Blairmore on Wednesday afternoon next. Considerable interest in cricket is being manifested.

The latest on the Scotchman: On the arrival of one of the steamships from Europe, the authorities had great trouble in inducing one of the passengers to leave the ship. Some one tipped the officials off and they were successful in getting the recalcitrant off by scattering oatmeal on the gangplank.

A local party, charged under the new liquor act some time ago with having had more beer and other liquors in his possession than really necessary, was found guilty by Magistrate Gresham, who on Tuesday handed down his decision, assessing a fine of five hundred dollars and costs or a period in jail. In all probability an appeal will be entered.

The American Consul at Fernie advises that travel to the United States is rapidly adjusting itself to the situation resulting from enforcement of the new regulations. In two respects, however, the public seems not as yet sufficiently informed. Persons writing the Consulate relative to such matters should always give their allegiance and state period of residence in Canada, and where arrangements are made to visit the Consulate for Immigration Visa, it is essential that all members of the family who are going to the States should appear at the Consulate. American citizens are not affected by the immigration laws, they can cross the border at pleasure without legal documents of any nature. Nor do Canadian citizens need official papers when proceeding to the United States merely for a visit. The immigrant authorities at the line are the judges in such matters, and it is well for even visitors to get provided with testimonials from the authorities of their home town.

RETURNS FROM BRITAIN

Hon. Geo. Hoadley, Alberta's Minister of Agriculture, returned the past week from Great Britain, where he was official representative of Alberta at the Empire Exposition at Wembley. Mr. Hoadley declares that the Canadian exhibit at Wembley was the outstanding one of the Empire, and attracted a vast amount of attention, and that Alberta had a prominent place in the composite exhibit.

Mr. Hoadley spent some time in Britain, and in Denmark, Holland and elsewhere, giving special attention to problems of marketing and immigration. He held several important conferences with British authorities and interests on these matters, and has brought back with him definite plans concerning marketing of grain and emigration of British settlers to Alberta which he will place before the Alberta Cabinet.

FREWIN-REID

On Thursday, July 3rd, a very quiet but pretty wedding took place at the home of the bride's mother, 165 5th Street North East, Medicine Hat, when Helene Irene, eldest daughter of Mrs. Sophie B. Reid, and the late J. C. Reid, became the bride of Corporal James Frewin, A.P.P. The marriage was solemnized by the Rev. Thomas Wilson, pastor of St. John's Presbyterian Church, in the presence of immediate relatives and friends. The bride, unattended, and carrying a bouquet of Ophelia roses, looked very charming in her travelling suit of navy duvetyen, with hat to harmonize. The drawing room was profusely decorated with palms, ferns, and cut flowers. A dainty buffet luncheon was served, after which the happy couple left on the Trans-Canada for Port Arthur and Duluth. On their return, Mr. and Mrs. Frewin will reside in Medicine Hat.

The bride's father was manager of the McGregor Hardware Co., with stores at Bellaville and Travers. Corp. Frewin was stationed at Taber for several years and while here made many friends. The Times joins with them in wishing the young couple many years of married bliss.—Taber Times, July 10.

ALBERTA COAL FOR ONTARIO

It is expected that the plan to market 100,000 tons of Alberta coal in Ontario the coming season will mature as a result of the vote of \$200,000 by the Federal Government for assistance to the railways in handling the coal. The plan is that the Federal Government will pay charges above the actual cost of handling the coal in train lots during the slack season in traffic. Many centres in Ontario have already placed preliminary orders for Alberta coal.

A NEW X-RAY

We understand that a Mr. McDougall, a resident of the country within four miles of Frank, Alberta, has secured one of the new X-ray machines to be used in connection with detecting interior troubles of automobiles of all descriptions. With this new machine, pictures of an automobile can be taken that will show only the vacant spaces and absent parts, even so far as showing how much of your gas tank is emptied and how much is missing.

The new device should prove popular and will relieve many a man of the necessity of taking his Ford down to pieces before ascertaining just where the trouble lies.

The machine will stand at Frank between the hours of 10 a.m. and 5 p.m. on all days except Sundays and other days in which statutory laws prohibit a human being from playing golf, fishing, drinking, or keeping a life partner. The fee will be ten dollars, same as charged at the Clarendon experimental farm.

Many towns in British Columbia have been threatened with destruction by forest fires which have been raging for upwards of a week and are practically beyond control. Rains are needed.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF F. M. PINKNEY, late of Blairmore, Merchant, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above named F. M. PINKNEY, who died on the 7th day of January, 1924, are required to file with F. M. THOMPSON and R. W. GILLIS & MACKENZIE, of Blairmore, the Executors of the will of F. M. PINKNEY, by the 1st day of September, 1924, a full statement duly verified, of the claims and of any securities held by them, and that after that date the executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge. And all parties indebted to the said F. M. PINKNEY or to F. M. Thompson Company of which the late F. M. Pinkney was a partner, are to pay the amounts of their indebtedness to the said F. M. Thompson Company by the said 1st day of September, 1924. Dated this 11th day of July, 1924. F. M. THOMPSON COMPANY, Solicitors for the Executors and F. M. Thompson Company, Blairmore, Alberta.

TENDERS

Tenders for Road Work

Sealed tenders will be received by the undersigned up to 4 p.m., standard time, July 22nd, 1924, for the construction of a portion (2065 lineal feet) of the Hillcrest road, being in Sections 20, 29 and 30, in Township 7, Range 3, West of the 5th Meridian. Preliminary estimated quantities as follows: 490 Cubic Yards Solid Rock Excavation; 500 Cubic Yards Common Earth Excavation.

The hauling, distributing and compacting of approximately 600 Cu. Yds. Crushed Rock, which will be furnished by the Department of Public Works in two stock piles, located at or near stations 1 and 10.

Installing two C. I. P. Culverts, 24 acre clearing. Copies of plans, specifications and profile may be seen on application to F. A. Wallace, Room 23, Blairmore Block, Blairmore, Alta. The cover of each tender will be marked "Tender for Hillcrest Road Works" and each bid should be accompanied by an accepted cheque or guaranty company's bond for the sum of (\$500) five per cent. of the price of the successful tender will be required to furnish a contract bond to the amount of (\$2000) twenty per cent. of the accepted bid. The lowest or any tender, not necessarily accepted. Tenders should be addressed to: Department of Public Works, c/o F. A. Wallace, Greenhill Hotel, Blairmore, Alta.

To Represent Canada

Expected That Hon. J. A. Robb Will Attend Inter-Allied Conference

In London It is expected that Hon. J. A. Robb will represent Canada in the inter-allied conference to be held in London in August for the consideration of the Dawes report.

Premier King will be unable to go. The British Government has asked all the dominions to be represented and it is intended to accept the invitation.

Canada will be a signatory to any treaty which is considered a permanent will be as well to ratify it. This will prevent a recurrence of the misunderstanding that arose out of the Lausanne treaty.

More Fishermen Find Extensive Pearl Beds

Have Monopoly of Certain Territory in China Sea

New and extensive pearl beds have been discovered by More fishermen recently in the China Sea off the north coast of the island of Palawan, one of the Philippine group, according to Dr. W. H. Wade, chief pathologist of the Cullion leper colony, who has just returned to Manila.

More fishermen have a monopoly of the new beds, and the waters around the coast of Palawan are dotted with the sails of their boats. Until recently the chief pearl beds of that region were located south of Palawan in the Sulu Sea and a majority of the fishermen were Japanese.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can testify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

-You can say one thing for the Tea Compendium. It never is necessary to write them in code.

WORLD HAPPENINGS BRIEFLY TOLD

The Italian airplane expedition to the North Pole has been postponed until next year because of lack of time.

The Prince of Wales will travel inognito, as last year, when he comes to Canada this autumn.

An order relaxing the existing restrictions on the movement of imported Canadian cattle in Scotland was issued on July 14.

Chinese customs officers raided the American sailing vessel, Talbot in port at Shanghai and seized arms and ammunition valued at \$50,000.

The broncho riding test at the British Empire Exhibition, in which the Canadians backed their competitor, Snowy Thompson, for a substantial amount, ended in a victory for the Canadian competitor, Pete Vandermere.

On July 7, seven British battle craft, the first British squadron to enter an American port for 40 years, steamed through the Golden Gate to the United States on their way home from their British Dominion visit the world over.

A decided expansion of Japan's air forces to increase the present force from eleven and one-half squadrons to seventeen squadrons by 1928, is being contemplated, Admiral Hiyu Takahashi, minister of naval affairs, has informed the Diet.

Court summonses which had been issued against promoters of the rodeo in the Wembley Stadium and cowboys participating in it, charging cruelty to animals, in the steer-rope contests, were dismissed.

WOMEN'S HANDICAPS

Headaches and Backaches Often Make Life Miserable

A woman's health handicaps her almost always. She has pains and troubles which do not afflict men. Nature does not give her a fair chance. Her blood is more often thin and poor than a man's, and she often neglects the first beginnings of ill-health. Many women who seem destined to a life of frequent suffering have been freed entirely from their suffering through the use of Dr. Williams' Pink Pills. Many a woman tells all day with a pain in her back, a headache, a burning headache, a sense of having no energy left.

What a pity women will not listen to their friends who Dr. Williams' Pink Pills have saved from misery. Whenever a woman suffers they will tell her to take Dr. Williams' Pink Pills. After a few days, middle-aged and after-life. Mrs. Mitchell, of Middleville, Ont., gives her experience for the benefit of other women sufferers. She says: "Some years ago I was so badly run-down I could hardly walk around the house. I tried to do a few household or anything being put on my mind in Windsor, Canada."

Wembley year has, of course, been a notable one for the Queen's collection; offerings have been made from all over the Empire. Among recent additions are a damask tablecloth, an Irish linen napkins, lace pillow, Serbian musical instrument, Norwich can, "Peltz," the Cat, pack of cards, lace fans, and a parasol from St. Vincent. Whenever possible, and I think that is a charming compliment, the Queen makes practice use of the gifts. The damask linen, for instance, is the gift of the Ulster Linen Trade, is in use at Buckingham Palace.

Earthquake Toll of Books
A unique collection of books and manuscripts has been lost through the Japanese earthquake, including the Korean Chronicles of the Li Dynasty in 730 volumes; the Topography of Japanese counties and towns, 6,400 volumes; and the great Chinese Encyclopedia in 9,998 volumes.—Living Age.

Two Important Food Factors
Clark's Beans with Pork possess two important food factors. While being a most wholesome food they are delicious and appetizing. No trouble—simply heat and serve.

Teach Children Spirituality
Miss J. March, of the Bournemouth Free Church Council, at a refuge and reformatory union conference in Glasgow asked if delegates know of the tremendous growth of Sunday School directed by spiritualists, the object of which, she said, was to train children as spiritualist mediums.

She added that the National Society for Prevention of Cruelty to Children were considering the matter.

Arizona's famous petrified forest is in danger of disappearing from the ravages made upon it by tourist collection seekers. Steps are being taken to protect this great natural curiosity.

Probably the largest private reindeer ranch in the world is in Alaska, presided over by Helen Love, of St. Paul, who, with her five brothers, looks after a herd of 45,000.

A 96-foot whale caught at Akutan, Alaska, was so huge that nine men could stand in its mouth.

Minard's Liniment Relieves Pain

Excellent For Croupy Children—When a child is suffering from croup, it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the mucus, giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, croup, rheumatism, pain, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Eternal vigilance occasionally enables a man to retain one umbrella for six consecutive weeks.

Britain's Big Business

Exhibition At Wembley is Biggest Advertising Contract World Has Ever Known

The final results of the British Empire Exhibition at Wembley cannot be estimated. It opened in the third week of April, and during fourteen days of the month of May there was also held, the British Industries Fair, a trade show of every kind of British manufactured goods, similar to the famous Leipzig Fair in Germany, with admission limited to trades only and not to the general public. It is now announced that, as the result of these two exhibitions, British firms secured orders to the value of two hundred and fifty million dollars. If such a quantity of business comes in the first month of Wembley, before the summer and fall invasion of visitors, what will it mean to Britain by the end of October? Every wheel in the old land should be turning, every chimney belching smoke, the figures of unemployment, which have been such a source of misery, and a drain on the exchequer, will dwindle to an unimportant number.

In this happy result the dominions must share. This is an Empire Exhibition, an Empire "shop window." It is the biggest advertising contract the world has ever known. The British Empire says: "See our windows." Men and women from all over the earth, combining business with pleasure, are looking in, seeing for themselves what the British Empire grows, what it manufactures, and because they know that British goods are British goods, millions of dollars worth of orders are being booked between different branches of the family and the nations of the earth. Advertising pays—St. Thomas Times-Journal.

Queen Mary Treasures Souvenirs
Takes Delight in Preserving Mementoes Of Interesting Occasions
What happens to all the mementoes and souvenirs that are presented to the Queen? It might be supposed that, being so many, they could only be put away in some huge store chamber, where they could rarely be seen. But, according to one who is in a position to know, nothing of that kind happens. The Queen, we learn on this authority, "is a very proud of her collections of souvenirs, and she treasures every one of them. It is doubtful, there is another woman in the world who takes such a keen delight in preserving her mementoes of happy and interesting occasions."

This is in keeping with the practice of Queen Victoria, who also treasured her vast collection of gifts, some of the most beautiful or striking being put on view in Windsor Castle.

Wembley year has, of course, been a notable one for the Queen's collection; offerings have been made from all over the Empire. Among recent additions are a damask tablecloth, an Irish linen napkins, lace pillow, Serbian musical instrument, Norwich can, "Peltz," the Cat, pack of cards, lace fans, and a parasol from St. Vincent. Whenever possible, and I think that is a charming compliment, the Queen makes practice use of the gifts. The damask linen, for instance, is the gift of the Ulster Linen Trade, is in use at Buckingham Palace.

This is why you see prettier complexions, today

Women have learned this simple way to keep youthful loveliness

The prettier complexions you see everywhere, today, are due to one thing:

Women have learned that it is unnecessary to sacrifice youthful loveliness to the passing years. This simple treatment has made it possible for millions of women to keep youth, charm. The secret is yours, too, if you will.

Just try this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

SUNDAY SCHOOL LESSON

JULY 20

THE BAPTISM OF JESUS

Golden Text: Thou art my beloved Son, in the I am well pleased. Mark 1:11.

Lesson: Mark 1:9-11. Devotional Reading: Isaiah 42:1-4. Reference Material: Matthew 3:1-17; Luke 3:22; John 1:19-34.

The Text Explained and Illumined

1. The Superscription to Mark's Gospel, verse 1. Here begins the good things concerning Jesus Christ, the Son of God.

2. The Herald of the Christ, verses 2-8. At the beginning of the Gospel, the first of the quotation that follows is from Malachi 3:1, the second, from Isaiah 40:3. To ascribe it to Isaiah was an inaccuracy, doubtless, but not through an error of memory, but through indifference to greater exactness, the quotation from Isaiah being what chiefly occupied the mind.

3. It is something analogous to attraction in grammar. It is Mark's only claim on his own account (Bruce).

4. John came to prepare the way of the Lord by preaching in the wilderness and calling upon the people to repent and be baptized. It is now generally admitted that proselytism baptism must have been the rule in Israel long before the time of John; and indeed from the very earliest days of Jewish propaganda. John met those who came to his baptism as the "proselytism of righteousness" was not when he sought to pass from the gates of Judaism into the sanctuary itself, with certain vigorous demands. The proselytism had to renounce his past, to renounce it so utterly that when he stepped out of the waters of baptism he was regarded, in the common language of the rabbis, as being "born again" or as being a "little child just born." And John, standing by the Jordan, with Israel with similar demands (John C. Labret).

No man or woman should hobnob with others because of corns when so certain a relief is at hand as Holway's Corn Remover.

Sore's Glow Worms
The noctiluca at last are under lock and key! The noctiluca are salt water "lightning bugs" and they have been captured after months of patient effort by Professor Knut Hamdorf, of Hamburg. Cooped up in a bottle and taken into a dark room, they glow like fireflies and glow worms.

The title of Czar was first assumed by Ivan II. in 1677.

Women have learned this simple way to keep youthful loveliness

The prettier complexions you see everywhere, today, are due to one thing:

Women have learned that it is unnecessary to sacrifice youthful loveliness to the passing years. This simple treatment has made it possible for millions of women to keep youth, charm. The secret is yours, too, if you will.

Just try this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

Utility of Copper

Few Realize Numerous Ways in Which It Is Used

Nearly a million pounds of copper were used in the construction of the famous Woolworth building of New York, which is today the world's tallest skyscraper. This copper was used for roofings, lifts, pipes and interior decorations. Few people realize the numerous uses to which copper is put. But one thing is certain. If the supply failed we would be without electric lights and bells, telephones, electric trains and trams—no saying nothing of copper coinage. At first glance the amount of copper used in the building trade, in comparison with the quantities of iron and steel, would seem to be negligible; but when one takes into consideration the fact that every motor car has anything from 10 lbs. to 200 lbs. of the metal in its composition, and that there are about 3,000 lbs. in every railway engine, one can appreciate the extent to which the demand for it is increasing.

Pains in Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With

NERVILINE

"I consider Nerviline the best remedy for a cold, sore throat or tightness across the chest," writes Miss Lucy Mosher, from Windsor, N.S. "For years our home has never been without Nerviline. I had a cold on my chest that fourteen remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle and was completely restored."

It's because Nerviline is so powerful, so penetrating, so sure to relieve congestion, that it is used in most homes, for the prevention and relief of a hundred minor ills. Get a 50c bottle today.

British Premier's Son May Visit Winnipeg

Will Accompany Oxford-Debaters On Proposed Visit to Canada

W. J. MacDonald, son of the premier of Great Britain, Rt. Hon. Ramsay MacDonald, will be in Winnipeg this fall, it is expected, to debate with two other Oxonians, J. D. Wodruft and M. C. Hollis, against University of Manitoba speakers.

The Oxford Debating Union has made arrangements to send to Canada and the U.S. a team of young debaters who will support or oppose popular principles of government against chosen teams from various colleges in the States and Canada. The team, which will come under the leadership of Mr. MacDonald, will sail the latter part of September or early in October for New York.

The literary has not been made public yet, but Manitoba University has been advised of the proposed visit to Western Canada, and preparations already are under way for the selection of a team which will uphold the honor of the university in contest against the Mother Country's chosen debaters.

Native German Bird Disappearing

The old German shorts with black wings, white breast and red bill—the colors of the old German empire—is reported to be disappearing. They returned in numbers from Egypt to Germany each year, but since the war their numbers have decreased.

Minard's Liniment for Rheumatism

Excellent For Croupy Children—When a child is suffering from croup, it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the mucus, giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, croup, rheumatism, pain, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Eternal vigilance occasionally enables a man to retain one umbrella for six consecutive weeks.

Local and General Items

C. P. R. Superintendent Jamieson spent Monday in Blairmore.

Misses Irene and Rita Costes, of Cowley, were visitors here on Friday last.

Some elaborate changes are being effected to the Farmer residence in West Blairmore.

Miss Esther and Marguerite Pearson are visiting with their parents in West Blairmore.

Mr. P. Ubertino has purchased a Studebaker Sedan from the Crows' Nest Pass Motors.

Miss F. Gibeau and Misses May and Margaret Flinn are camped at Precor for their vacation.

Dr. Hynes has received a certificate declaring him a full-fledged medical practitioner. Congratulations, Doc!

Mrs. G. Lawson Gordon, widow of the late Rev. Gordon, of Redcliff, Alberta, died at Scotsburn, Nova Scotia, on July 7th.

Miss Ruby Howe and Miss Vina Passmore left Tuesday morning for Lethbridge, where they will spend a couple of weeks holidays, visiting friends.

Despite the fact that a strike has prevailed for about three and a half months, Saturday last was one of the busiest in the history of local stores. People from all neighboring towns, including Cowley and Michel, came to Blairmore to do their shopping and incidentally took in the theatres and other attractions.

We understand that several local parties are bidding for the opportunity to establish a beauty parlor in Blairmore, for the purpose of beautifying some of those who have lately fallen to the bob-hair epidemic.

A quiet wedding took place at Banff on Thursday last, when Miss Lillian Solberg, R. N., of Banff, became the bride of Arthur J. Bulman, of Blairmore. After a motor trip over the Banff-Windermere road, Mr. and Mrs. Bulman will reside in Blairmore.

M. B. Huffman accompanied Dr. McPherson, of Riley, Alta., Grand Master of Alberta L.O.O.F., to Cowley on Tuesday, where an official visit was made to Cowley Lodge. District Deputy George Christie, of Bellevue, and M. S. Saunders, P.G., of Calgary, also accompanied them.

Last week we advertised for the owner of a farthing that had been picked up and in a short time a Scotchman came along to claim the article. He asked: "How's chances to get me farthing?" We replied: "All right. Where's your sixty cents for the ad?" "Well," he remarked, "if you want sixty cents you had better keep the farthing." Since then we have lost the farthing and will give five cents for its return to us.

The Board of Trade needs a second cook stove for the tourist camp kitchen. Maybe some citizen interested would have one stored that they do not need and that they would gladly donate or sell for a small figure. If so, kindly inform The Enterprise.

Word reached town last week end of the death of Mrs. Wardman, beloved wife of Mr. Anthony Wardman, which occurred at Vancouver. Mr. and Mrs. Wardman were former residents of Rock Creek district, near Burnsville.

Several dogs have adopted the bobbed-hair idea in Blairmore.

The town council of Brooks lowered the tax rate for 1924 by ten mills.

Robert Smallwood, of Corbin, was a visitor to Blairmore last week end.

If a man has common sense he seldom makes use of it in a love affair.

The Lethbridge annual fair opened yesterday and continues till Saturday.

Lots of married men, who have no knowledge of music, play second fiddle.

Mar Roy is applying for a beer license for the Empire hotel at Edzikon.

Mr. McEwan, of the Union Bank staff, has returned from his summer vacation.

It is fallacy that cutting off a man's beard will prevent his head from becoming bald.

J. W. McDonald, K.C., and family, of Macleod, spent Sunday last at Waterton Lakes.

Mr. and Mrs. Atherton, of Drumheller, have returned home after a two weeks' stay with Mr. and Mrs. Thomas Smith.

Several members of the local I. O. O. F. Lodge accompanied Grand Master Dr. McPherson to Bellevue on Monday night last, when the Grand Master paid an official visit to that lodge.

Mr. Robert Evans and family, of Coleman, and James Cousens and family, of Bellevue, were Waterton Lakes visitors over the week end. Mrs. Cousens and children remained over there for a few days.

Today is being observed as a civic holiday at Macleod and the whole populace is visiting Lethbridge, in return for the manner in which the citizens of Lethbridge turned out for the Macleod Jubilee.

Mr. and Mrs. Sylvia Sicotte left Millbury, Massachusetts, on June 26 for Blairmore, on a visit to the former's parents, Mr. and Mrs. Horace Sicotte. They are travelling by motor and will stop at many points along the route.

According to the latest issue of the Canadian Municipal Review, Blairmore has the lowest tax rate of any town municipality in Canada. The rate today is 20 mills, while many towns in Ontario of similar size are burdened with a tax rate of upwards of 50 mills.

The road changes around Crows' Nest Lake are nearing completion. The grade around the west end of the small lake is finished and gangs of men are now at work widening the trail around the west bluff. The Slide road is also nearing completion and only needs surfacing at the eastern approach. Tenders are now being invited for the grading of the Hillcrest road from the Hillcrest bridge to the junction near the Slide. It is intended to put this piece of road in first-class shape. Some grading is necessary all the way from Bellevue to Lundre, particularly near Maple Leaf and the new Rock Creek bridge. The road between Burnsville and Lundre is in such a disgraceful condition at present that considerable traffic is being diverted via Lee Lake road.

For Funeral Flowers, phone 212. Crows' Nest Pass Undertaking Co. Rod McLeod, of The Enterprise staff, paid a flying visit to Lethbridge over the week end.

Perple's ball team defeated the Elks at Lethbridge on Saturday last by a score of 11 to 10.

Mr. and Mrs. Charlie Thomason and children are motoring through to Spokane, returning via Nelson.

C. J. Tompkins and family, who had been in camp for a week at Waterton Lakes, returned home on Sunday last.

Statisticians show that in 1923, 32 people were killed by inhaling gas and 141 by putting lighted matches to it; and over five thousand by stepping on it.

In the game with France on Monday the Edmonton Commercial Grads, ladies' basketball championship team, led the Parisians by a score of 42 to 16 at half time.

Mr. and Mrs. Makin, of Coleman, motored through to Cumberland, B.C., via Spokane, Seattle and Victoria, accompanied by Mrs. Thomas Smith, of Blairmore, on a two months' trip.

Mr. and Mrs. A. Shearer, Mr. and Mrs. F. Wright, Mr. and Mrs. Knapman and family, and Mr. and Mrs. Ed. Royle and family were visitors to Waterton Lakes on Sunday last.

Mrs. H. Gibeau returned by Tuesday morning's train from Calgary, after having motored to that point with Mr. and Mrs. Charlie Higgins over the Banff-Windermere road.

The provincial department of public works are calling for tenders for roadwork between Pincher Station, Section 34, township 6, range 30, west of fifth and Section 27, township 7, range 2, a total of sixteen miles, with approximately 50,000 cubic yards of excavation.
